

THE JOURNAL OF HORTICULTURAL SCIENCE

BOARD OF EDITORS

Editor:

G E TIDBURY, BSc, ARCS, AICTA, CBiol, FIBiol, BS of Z, East Malling Research Station, Maidstone, Kent ME19 6BJ.

Associate Editors:

K E COCKSHULL, BSc, PhD, Glasshouse Crops Research Institute, Worthing Road, Rustington, Littlehampton, Sussex.

B H HOWARD, BSc, PhD, East Malling Research Station, Maidstone, Kent ME19 6BJ.

S H MANTELL, BSc, MSc, DIC, DTA, PhD, Wye College, Nr Ashford, Kent.

R NICHOLS, MSc, PhD, Glasshouse Crops Research Institute, Worthing Road, Rustington, Littlehampton, West Sussex.

J D QUINLAN, BSc, PhD, East Malling Research Station, Maidstone, Kent ME19 6BJ.

A R REES, BSc, DSc, CBiol, FIBiol, Glasshouse Crops Research Institute, Worthing Road, Rustington, Littlehampton, Sussex.

T J RIGGS, BSc, PhD, National Vegetable Research Station, Wellesbourne, Warwick.

P J SALTER, DSc, CBiol, FIBiol, National Vegetable Research Station, Wellesbourne, Warwick.

W W SCHWABE, DIC, PhD, DSc, FIHort, Wye College, Nr Ashford, Kent.

I W SELMAN, DSc, Wye College, Nr Ashford, Kent.

R O SHARPLES, BSc, PhD, East Malling Research Station, Maidstone, Kent ME19 6BJ.

C E TAYLOR, CBE, BSc, PhD, FRSE, CBiol, FIBiol, Scottish Crop Research Institute, Invergowrie, Dundee, Angus.

H D TINDALL, MBE, MSc, FLS, CBiol, FIBiol, CIAgrE, NDH, Silsoe College, Department of Agricultural Engineering, Silsoe, Bedford MK45 4DT.

K J TREHARNE, PhD, Long Ashton Research Station, University of Bristol, BS18 9AF.

L D TUKEY, BS, MS, PhD, Department of Horticulture, 103 Tyson Building, The Pennsylvania State University, University Park, PA 16802, USA.

P D WAISTER, BSc, PhD, Scottish Crop Research Institute, Invergowrie, Dundee, Angus.

S J WERTHEIM, Dr Ir, Proefstation voor de Fruitteelt, Brugstraat 51, 4475 An Wilhelminadorp, The Netherlands.

PUBLICATION COMMITTEE

W W SCHWABE, DIC, PhD, DSc, FIHort (Chairman)

J K A BLEASDALE, BSc, PhD, CBiol, FIBiol, FIHort

R E BUTTERS, BSc(Hort), NDH

G G HENSHAW, BSc, PhD

J P HUDSON, CBE, MBE(Mil), GM, MSc, PhD, NDH, CBiol, FIBiol, VMH

VOL 100

1960

HEADLEY BROTHERS LTD
The Invicta Press, Ashford, Kent

TABLE OF CONTENTS

THE JOURNAL OF HORTICULTURAL SCIENCE, VOL. 61

No. 1 (JANUARY 1986)

M. S. PARRY: The effects of budding height on the field performance of two apple cultivars on three rootstocks	1-7
A. J. TOPPING and M. T. LUTON: Cultivar differences in the bruising of English apples	9-13
M. KNEE: Opposing effects of daminozide and ethylene on the induction of flesh softening in apple fruits	15-21
M. T. LUTON and D. A. HOLLAND: The effects of preharvest factors on the quality of stored Conference pears. I. Effects of orchard factors ..	23-32
P. ROSATI, DARIA GAGGIOLI and L. GIUNCHI: Genetic stability of micro-propagated loganberry plants	33-41
MARGARET E. NORTON and C. R. NORTON: Explant origin as a determinant of <i>in vitro</i> shoot proliferation in <i>Prunus</i> and <i>Spiraea</i>	43-48
HILDE NYBOM: Active self-pollination and pollen stainability in some <i>Rubus</i> cultivars	49-55
W. G. TUCKER and D. GRAY: The effects of threshing and conditioning carrot seeds harvested at different times on subsequent seed performance	57-70
D. GRAY, JOYCE R. A. STECKEL, SALLY R. JONES and D. SENIOR: Correlations between variability in carrot (<i>Daucus carota</i> L.) plant weight and variability in embryo length	71-80
D. C. E. WURR and JANE R. FELLOWS: The influence of transplant age and raising conditions on the growth of crisp lettuce plants raised in Techniculture plugs	81-87
T. P. PYZIK and M. D. ORZOLEK: The effect of plant growth regulators and other compounds in gel on the emergence and growth of tomato seedlings in a cool potting medium	89-94
G. ELIADES and P. I. ORPHANOS: Irrigation of tomatoes grown in unheated greenhouses	95-101
P. CORELLA, J. CUARTERO, F. NUEZ and M. BAGUENA: Development time of parthenocarpic tomato (<i>Lycopersicon esculentum</i> Mill.) fruits chemically and genetically induced	103-108
R. P. BLACKSHAW: An evaluation of seven controlled-release insecticides for the control of vine weevil larvae	109-111
A. SAMARTIN, ANA M. VIEITEZ and E. VIEITEZ: Rooting of tissue cultured camellias	113-120
ULLA E. GERTSSON: Influence of explant orientation and media composition on organ formation, growth and nitrogen content in petiole explants of <i>Senecia</i> \times <i>hybridus</i> Hyl.	121-128
J. C. LEE, J. T. A. PROCTOR and M. J. TSUJITA: Air and root-zone temperature effects on the growth and yield of American ginseng ..	129-134
C. M. MENZEL and B. F. PAXTON: The effect of cincturing at different stages of vegetative flush maturity on the flowering of litchi (<i>Litchi chinensis</i> Sonn.)	135-139
V. J. KULKARNI: Graft-induced off-season flowering and fruiting in the mango (<i>Mangifera indica</i> L.)	141-145

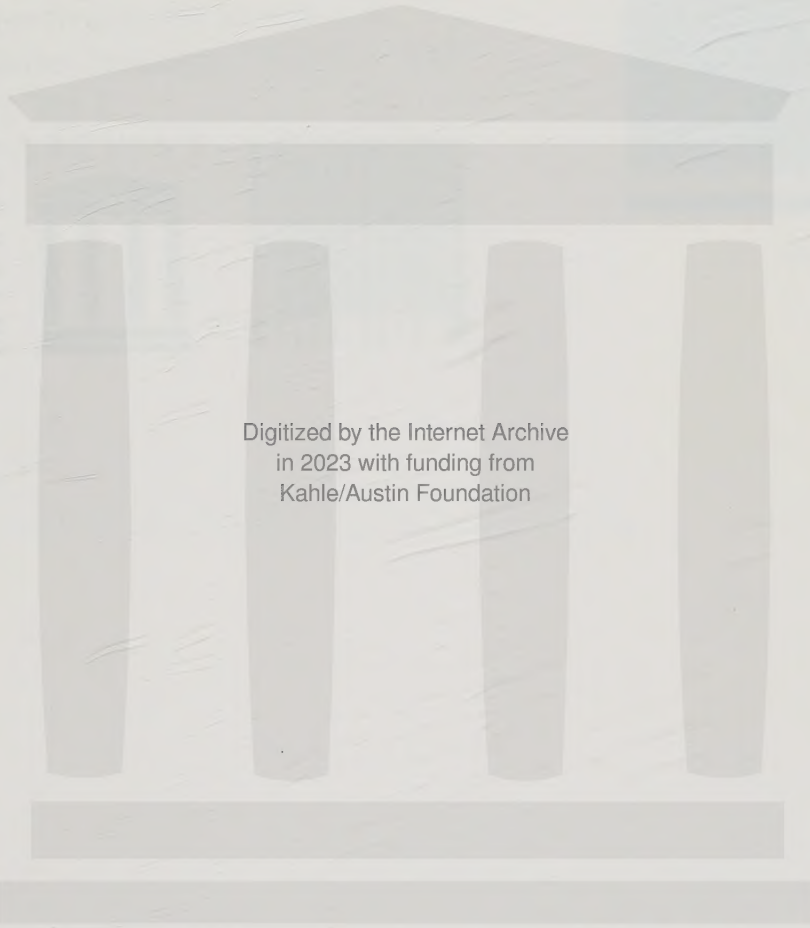

D. V. VINTERHALTER and D. J. JAMES: The use of peroxidase polymorphism in the identification of Malling and Malling Merton apple rootstocks	147-152
N. S. A. AGHA and W. R. BUCKLEY: Assessment of canopy efficiency of apple trees in beds. I. Canopy development assessed by direct light measurements	153-159
N. S. A. AGHA and W. R. BUCKLEY: <i>Idem</i> . II. Canopy assessment from overhead photography	161-169
H. G. JONES, K. H. HIGGS and T. J. SAMUELSON: Calcium uptake by developing apple fruits. III. Additional studies on fruit calcium balance	171-179
R. K. VOLZ and J. N. KNIGHT: The use of growth regulators to increase precocity in young apple trees	181-189
J. N. KNIGHT and A. D. WEBSTER: Translocation of gibberellic acid and of fruit setting/retaining stimuli in Conference pear, Victoria plum and Early Rivers cherry	191-200
R. P. PRICE, JR. and N. DUNA: The effect of initial plant size on yield components of winter-planted strawberries in coastal Lebanon	201-203
P. CRISP, A. R. GRAY, S. M. ANGELL, P. J. SALTER, J. AKEHURST and R. A. SUTHERLAND: The effects of plant spacing on the breeding of broccoli from an expanded genetic base	205-215
H. IMAMUDDIN and JEAN HANSON: Germination and storage behaviour of seeds of <i>Colocasia gigantea</i> Hook. f.	217-221
S. RAJARATHNAM, ZAKIA BANO and M. V. PATWARDHAN: Nutrition of the mushroom <i>Pleurotus flabellatus</i> during its growth on paddy straw substrate	223-232
M. O. AKORODA: Relationships of plantable okra seed and edible fruit production	233-238
J. ROUCHAUD, C. MOONS, L. DETROUX, W. HAQUENNE, E. SEUTIN, L. NYS and J. A. MEYER: Quality of potatoes treated with selected insecticides and potato-haulm killers	239-242
A. J. F. PICKEN and M. GRIMMETT: The effects of two fruit setting agents on the yield and quality of tomato fruit in glasshouses in winter	243-250
H. WAINWRIGHT and J. MARSH: The micropropagation of watercress (<i>Rorippa nasturtium-aquaticum</i> L.)	251-256
C. R. NORTON, YONG QU and G. B. STRALEY: Self-fertility and cross-compatibility among six species of <i>Meconopsis</i> (Papaveraceae)	257-263
A. R. SENA GOMES and T. T. KOZLOWSKI: The effects of flooding on water relations and growth of <i>Theobroma cacao</i> var. <i>catongo</i> seedlings	265-276
J. M. ORTIZ, A. GARCIA-LIDON, J. L. TADEO, L. FERNANDEZ DE CORDOVA, B. MARTIN and A. ESTELLES: Comparative study of physical and chemical characteristics of four lemon cultivars	277-281
E. E. PROTOPAPADAKIS: Peroxidase and catalase activities in healthy and <i>Phomopsis citri</i> -infected citrus trees	283-285

No. 3 (JULY 1986)

R. J. HAYNES and R. S. SWIFT: The effects of pH and of form and rate of applied iron on micronutrient availability and nutrient uptake by high-bush blueberry plants grown in peat or soil	287-294
H. S. PARIS, H. NERSON and Z. KARCHI: Yield and yield quality of courgette as affected by plant density	295-301
G. SLACK and D. W. HAND: The effects of propagation temperature, CO ₂ concentration and early post-harvest night temperature on the fruit yield of January-sown cucumbers	303-306
D. GRAY and JOYCE R. A. STECKEL: The effects of several cultural factors on leek (<i>Allium porrum</i> L.) seed production	307-313
D. GRAY and JOYCE R. A. STECKEL: The effects of seed-crop plant density, transplant size, harvest date and seed grading on leek (<i>Allium porrum</i> L.) seed quality	315-323
D. C. E. WURR, JANE R. FELLOWS and P. HADLEY: The influence of supplementary lighting and mechanically-induced stress during plant raising, on transplant and maturity characteristics of crisp lettuce	325-330
C. J. WRIGHT and W. Y. SOBEIH: The photoperiodic regulation of bulbing in onions (<i>Allium cepa</i> L.). I. Effects of irradiance	331-335
W. Y. SOBEIH and C. J. WRIGHT: <i>Idem</i> . II. Effects of plant age and size	337-341
R. SALINAS, A. CERDÁ and V. MARTINEZ: The interactive effects of boron and macronutrients (P, K, Ca and Mg) on pod yield and chemical composition of pea (<i>Pisum sativum</i>)	343-347
D. GRAY and JOYCE R. A. STECKEL: A relationship between sowing date and harvest date for radish (<i>Raphanus sativus</i>)	349-352
G. SLACK: The effects of leaf removal on the development and yield of glasshouse tomatoes	353-360
D. L. EHRET and L. C. HO: The effects of salinity on dry matter partitioning and fruit growth in tomatoes grown in nutrient film culture	361-367
N. K. SRINIVASA RAO: The effects of antitranspirants on stomatal opening, and the proline and relative water contents in the tomato	369-372
S. D. ROTHWELL and L. W. ROBINSON: Cold acclimation potential of watercress in relation to growing season and nutrient status	373-378
N. NEVEUR, F. CORBINEAU and D. CÔME: Some characteristics of <i>Cyclamen persicum</i> L. seed germination	379-387
D. HASDAI, A. BAR-AKIVA and R. GOREN: Chemical and morphological characteristics of developing fruits from old clone v. nucellar Shamouti orange trees	389-395
S. C. AGARWALA, B. D. NAUTIYAL and C. CHATTERJEE: Manganese, copper and molybdenum nutrition of papaya	397-405

REVIEW ARTICLE

LESLEY CURRAH: Leek breeding: a review	407-415
J. R. NICHOLAS, P. J. GATES and D. GRIERSON: The use of fluorescence microscopy to monitor root development in micropropagated explants	417-421
MARGARET E. NORTON and C. R. NORTON: An alternative to <i>in vitro</i> propagation—axillary shoot enhancement on whole plants	423-428
A. D. WEBSTER, R. A. SMITH and R. WATKINS: Apple rootstock studies. I. Preliminary evaluations of several MM.106 × M.27 hybrids	429-437
P. J. RICHARDSON, A. D. WEBSTER and J. D. QUINLAN: The effect of paclobutrazol sprays with or without the addition of surfactants on the shoot growth, yield and fruit quality of the apple cultivars Cox and Suntan	439-446
ANNE RICHARDSON: The effects of herbicide soil management systems and nitrogen fertilizer on the eating quality of Cox's Orange Pippin apples	447-456
D. C. HARRIS and K. R. TOBUTT: Factors influencing the mortality of apple seedlings inoculated with zoospores of <i>Phytophthora cactorum</i> (L. & C.) Schroet.	457-464
G. D. BLANPIED: A study of the relationship between fruit internal ethylene concentration at harvest and post-harvest fruit quality of cv Empire apples	465-470
A. D. WEBSTER, J. D. QUINLAN and P. J. RICHARDSON: The influence of paclobutrazol on the growth and cropping of sweet cherry cultivars. I. The effect of annual soil treatments on the growth and cropping of cv Early Rivers	471-478
M. F. KERSLAKE and R. C. MENARY: The influence of plant density and light interception on bud yield in blackcurrants	479-484
J. A. T. WOODFORD and S. C. GORDON: Insecticides for the control of raspberry cane midge (<i>Resseliella theobaldi</i>) and midge blight	485-496
P. D. KEEFE and S. R. DRAPER: The isolation of carrot embryos and their measurement by machine vision for the prediction of crop uniformity	497-502
D. C. E. WURR, E. F. COX and JANE R. FELLOWS: The influence of transplant age and nutrient feeding regime on cauliflower growth and maturity	503-508
B. ALONI: Enhancement of leaf tipburn by restricting root growth in Chinese cabbage plants	509-513
P. ADAMS, C. J. GRAVES and G. W. WINSOR: Some effects of micronutrients and liming on the yield, quality and micronutrient status of lettuce grown in beds of peat	515-521
MARJORIE C. POWELL and A. C. BUNT: A model of the growth of leaves of <i>Begonia</i> × <i>hiemalis</i> Fotsch. grown in long days and with intercalated short days	523-531
S. B. SHARMA, P. K. RAY and R. RAI: The use of growth regulators for early ripening of litchi (<i>Litchi chinensis</i> Sonn.)	533-534
R. A. DREW and N. G. SMITH: Growth of apical and lateral buds of papaw (<i>Carica papaya</i> L.) as affected by nutritional and hormonal factors	535-543
L. J. VAN LELYVELD and K. DE ROOSTER: Browning potential of tea clones and seedlings	545-547
L. J. VAN LELYVELD and K. DE ROOSTER: Effect of field practice and factory processes on black tea quality	549-553
R. O. SHARPLES: Obituary notice: Cyril West	555
